IIT(BHU) - NIMS
JOINT WORKSHOP ON
TRENDS IN QUANTUM MATERIALS

24 March 2026
Dev & Vardhana Goswami Lecture Hall Complex
School of Materials Science and Technology
Indian Institute of Technology (BHU), Varanasi

Dr. Shrawan Mishra
shrawan.mst@iitbhu.ac.in
+91-9129113336

This Indo-Japan workshop brings together leading researchers, scientists, and industry experts from India and Japan to discuss cutting-edge developments in emergent quantum materials. This workshop will offer an opportunity to emphasise the research tradition and the trends of adapting the research fundamentals in today's world. The following are major themes that workshop will be emphasized:

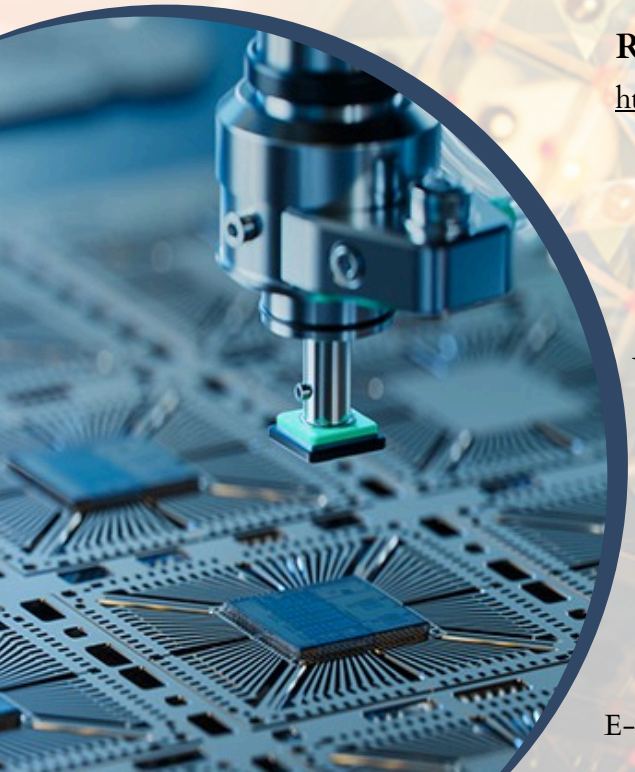
- Quantum materials and applications
- Materials for sensors & quantum devices
- Quantum Technology
- Magnetism and Sprintronics
- Superconducting Materials

Theme

- Recent breakthroughs in quantum materials
- Quantum Sensing & Devices
- Indo-Japan academic and industrial collaborations

Expert Speaker

Dr. Shinji Isogami
NIMS, Japan



Registration

https://forms.gle/i2idp9FtgwQTKEXp8

- Register online by 20/03/2026
- Selections are based on research relevance.
- Shortlisted candidates will be notified by 20/03/2026
- Seats are limited to 75 participants.

Workshop fees:

- ₹ 1000 (Early-career researchers)
- ₹ 500 (PhD scholars & Master's students)
- Accommodation will be provided on payment basis
- For payment details, please visit website
